MANY NEW FACULTY MEMBERS GREET US

A Successful Year Seems Assured

Rollins College has begun its thirty-third year as a Christian college. In spite of abnormal conditions occasioned by the war, it is safe to say that never before has the outlook been so bright and encouraging. Dr. Calvin Harvey French who has accepted the presidency of the college is a man of culture and scholarly attainments as well as one of wide and valuable experience in the management of college affairs. During the past four years he has been secretary of the College Board of the Presbyterian Church, having supervision of the Western colleges which are under this board. Previously he was for fifteen years president of Huron College in South Dakota during which time that college came to be recognized as one of the leading colleges of the Northwest with a student body of more than one half million.

Not only does the opening of the school year bring a new president to the college but also many new members of the faculty.

Miss Jessie M. Short, A. B., A. M., comes to Rollins as Dean of Women and professor of mathematics.

By her natural ability and practical experience, Miss Short is well qualified to be "the best friend of the girls in Cloverleaf."

The Science Department is under the direction of Wm. Hale Herrick, A. M., formerly professor of chemistry in Iowa College and in Pennsylvania State College.

Wm. Olliphant Rencher, A. B., Vanderbilt University, where he has also done graduate work in History, English and Philology takes the chair of Ancient Languages. He will also conduct the classes in Sociology and Politics.

Miss Eva Wilkins whose work is well known at Rollins has returned after several years' absence as professor of history. She occupied this chair for a short time last winter and those who sat in her classes will gladly welcome her.

Joakim Reinhard, M. A., a graduate of the University of Copenhagen and a brilliant linguist of years of experience in teaching, is conducting classes in French.

Professor Edward S. Meyer, who received his M. A. and Ph. D. degrees at the University of Heidelberg and

OPENING EXERCISES OF THIRTY-THIRD YEAR

HELD IN KNOWLES HALL

Rollins College began its thirty-third year Tuesday September 18th at ten o'clock when the opening chapel exercises were held in Knowles Hall. The prelude was played by Mrs. Harcourt, head of the Organ department of the Conservatory of Music.

The exercises proper were opened with the invocation by Dr. C. E. En-

Board of Trustees. The theme of his brief address which followed his greetings was suggested by the unusual conditions of the present time. He urged all ~~the~~ present, especially the students, to realize that each and every one belongs to the selective draft in one sense or another. The call of the world to-day demands the

low who is well known to both Rollins and Winter Park circles. Mr. W. R. O'Neal then introduced Dr. Calvin H. French who has lately accepted the presidency of Rollins College. Dr. French is a man of broad culture and in addition possesses the ability and training which will make him invaluable to the College.

He expressed pleasure in being able to assume the duties of the office for which he has been chosen, saying that he sees opportunities here for really great service.

Miss Rous, of the Conservatory then played Chopin's Impromptu in F sharp with her usual ability and charm.

Rev. Geo. B. Waldron of Tampa, extended a welcome to the president, faculty and students on behalf of the

highest ideals in home life, recognition of the duties and privileges of political life, absolute integrity in business, and last and greatest of all loyalty to Jesus Christ.

Following Rev. Waldron's address a violin quartette consisting of Dr. Allen, Miss Dyer, Miss Warner and Mrs. Krauss, played a selection from Kohler. Hearty applause expressed the appreciation of the audience.

The pastors of the various churches of the town, Dr. Litch, Dr. Jones, Rev. Boggess and Dr. Vincent were introduced by Dr. French, each one responding with hearty greetings to Dr. French, the faculty and students. Dr. Enlow and Rev. Brower, former pas-

ALUMNI ASSOCIATION BUSY THIS YEAR

Interesting Alumni Circles Formed

Purpose of the Alumni Association:

"It shall be the purpose of this Association to further the interest and promote the welfare of Rollins College in the following ways: (a) By the establishment of closer relations between Rollins College and its graduates and non-graduate matriculants, tending to enlist their aid in its upbuilding, and the cultivation among them of a fraternal spirit in accordance with the ideal of the college and the principles which it serves; (b) by the collection and preservation of correct names and addresses, occupations, and full records of all graduates and non-graduate matriculants by means of the files of the Association and through the official alumni publication the "Rollins Alumni Record."

ALUMNI ASSOCIATION HOLDS SPECIAL MEETING.

Following the opening of the College on Tuesday morning last a special meeting of the Alumni Association was held that afternoon in Carnegie Hall to consider a number of important matters. The president, Mr. Alfred J. Hanna, presided and a number of out of town members were present.

The Constitution was enlarged at his time by amendments. The purpose as above was one of these.

"Rollins Alumni Record" to Contain Names and Addresses of all Former Students

Another important addition to the Constitution was the provision for the publication of an official "Record," to be issued after each annual meeting of the Association and following out the idea of the recent "Alumni Supplement" of the Sandspur in 1916, to contain correct names and addresses of all former students and faculty as well as important records, plans for future undertakings, and to serve as a medium for the expression of alumni sentiment about Rollins College and its welfare.

It is hoped that all alumni and former students will co-operate with the officers of the Association in this undertaking and send all information to Miss Susan T. Gladwin, Secretary, Winter Park, Fla.

The Sandspur extends a most hearty greeting to President French and to the members of the faculty, old as well as new.

The paper stands ready to assist both president and faculty in every possible way and to help them in whatever they may undertake for the good of Rollins College.

May this year be crowned with success as great as that of which even the most visionary has dreamed!

It is with regret that we lose in a sense Dr. Geo. M. Ward who served so admirably last year in the capacity of President of Rollins College. And yet the regret is quickly replaced by pleasure when we think that his relationship with the school is still very intimate and that the change which has been made will result in the greatest good for Rollins College.

President French of the college, President Ward of the Board of Trustees, success is assured when we know that these men are at the head of affairs.

For the first time in years, the student body of Rollins College numbers more girls than boys in its ranks. This is due to abnormal conditions in civil life due to the war, as well as to the fact that many students have enlisted.

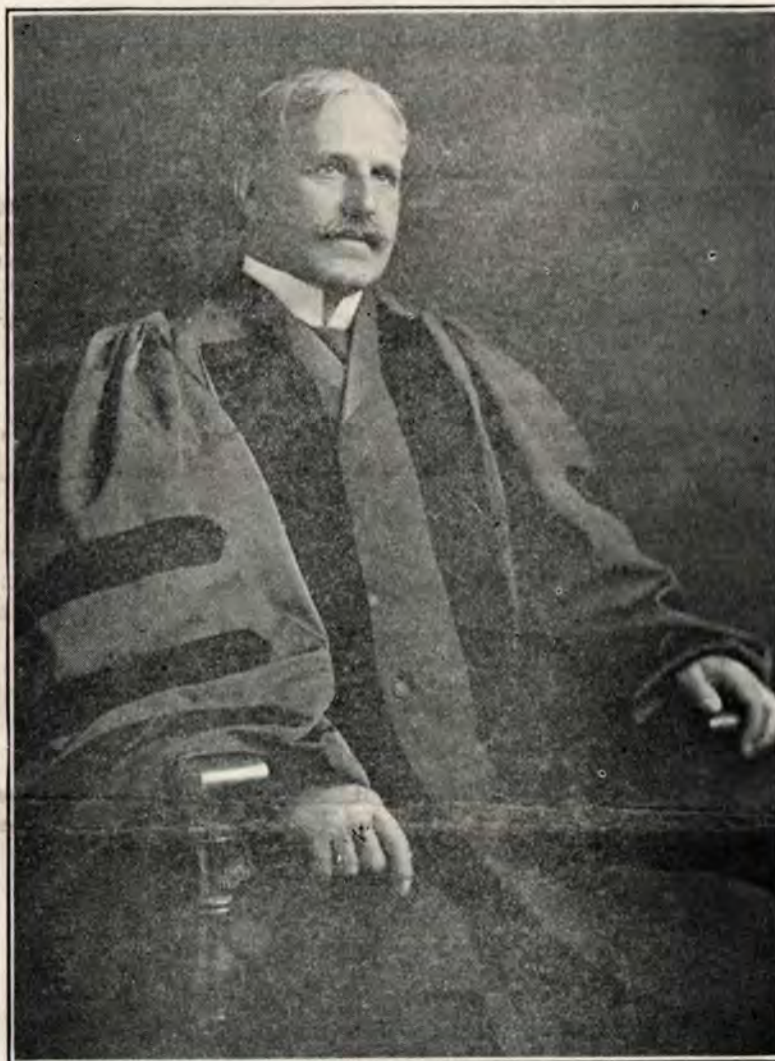

School activities must be maintained. The work of the various organizations must be cared for as usual. There are fewer boys than ever before. What do you expect to do about it, girls? Now is the time to show that you can do your "bit" wherever you are. The men are serving in the ranks. What service will you render here?

"Stick to It." Stick to What? The Rollins Sandspur.

On Tuesday September 18th, Rollins College began its thirty-third year. What the present year has in store for the institution can only be surmised. The prospect is brilliant. Under the guidance of Dr. Calvin H. French who has recently assumed the duties of president, the College has every reason to expect a most highly successful year.

To Dr. French and to the new members of the faculty we extend a most cordial greeting on behalf of the students and assure them the most hearty support and cooperation of the student body.

CLOVERLEAF COTTAGE

The most noteworthy of the many improvements which have been made on the campus during the summer are those in Cloverleaf Cottage.

New baths have been installed on all three floors through the kindness of friends.

New floors have been laid in the parlors, reception hall and corridors on the first floor. The woodwork of the hall and parlors has been refinished in ivory white and the walls tinted a delicate French gray. In the east parlor a fireplace decorated with imported mosaics, and window seats have been built, giving the room a most homelike appearance.

Hangings of brown velvet corduroy lined with flowered cretonne in delicate shades of pink, new light fixtures and cretonne draperies over snowy white curtains at the windows, make the rooms most attractive and inviting.

The members of the Y. W. C. A. are planning with great pleasure their welcome reception which will be held in the girls' "new home" to-night.

The girls and members of the faculty who live in Cloverleaf are especially grateful for these improvements which have been made possible through the generosity of Mrs. Robert Dhu MacDonald and the interest and cooperation of Dr. and Mrs. Geo. M. Ward.

ROLLINS BOYS "WITH THE COLORS."

"We're here because we're here," hardly expresses the case of most of the Rollins boys this year. Some of us are here waiting for the call, many in preparation for service when eligible.

But whatever may have allowed us to come back to old Rollins, each one recognized his privilege and realizes his duty. We will not be slackers in our school work.

tors of the Congregational church of Winter Park also gave appropriate words of welcome.

After announcements by President French concerning the school work, the exercises were closed by the benediction followed by the recessional.

During the exercises regret was expressed that Dr. Geo. M. Ward who last year served as Acting-president could not be present. Although Dr. Ward has given his work into the hands of Dr. French, he is still vitally and intimately connected with the College as President of the Board of Trustees. Later on he and Mrs. Ward will come to Winter Park and remain here for as long a time as the duties of his office make necessary.

Alumni to Work for Baker Chimes

From the report of the Secretary of the Association, Miss Gladwin, it was learned that the Baker Chimes had received a majority of the votes cast in the mail ballot held during the past few months by the Alumni Association. Among the other objects which received votes were, Press Building, a fund for which was donated by the Tomokan editors of last year, a Greek Theatre, and an Infirmary. According to the vote of the Association at the last annual meeting all funds of the Association will hereafter be expended toward this object and it is hoped that the Chimes may at no distant date be realized.

Rollins Circles.

Of interest to former students who have not received degrees from the College will be an additional amendment to the Constitution which reads as follows: "Rollins Circles of the various cities wherein former students of Rollins College reside shall be admitted to membership in this Association upon payment of a fee of three dollars, such membership entitling the Circle to one representative with voting power at each meeting."

On the evening of August 4, at the Oakley Country Club of Boston, the "Hub Chapter" held its first social gathering. This took the form of a dinner in honor of Dr. George Morgan Ward, president of the Board of Trustees, and president Calvin H. French, of the College. This dinner was a most enjoyable affair and the function was closed with the singing of the Rollins Alma Mater Song.
